Collins Kiptoo Kiprotich

DATA SCIENTIST

EDUCATION

Moi High School - Kabarak
High School Diploma
2011-2014

Kenyatta University
Bsc. Aerospace Engineering
2015-2021

Moringa School
Data Science Bootcamp
2022-2023

WORK EXPERIENCE

Operator - Invisible Technologies, Inc | 2021 - Present

- Proven track record of success in data entry and team collaboration roles.
- Demonstrated ability to accurately and efficiently enter large amounts of data, ensuring that all information is accurate and up-to-date.
- Strong ability to work effectively in a team environment, collaborating with other team members to ensure that client needs are met on time and to the highest standard. Adept at multitasking and prioritizing competing demands, able to meet tight deadlines while maintaining a high level of attention to detail.
- Excellent communication and interpersonal skills, able to communicate effectively with clients and internal teams to deliver results.

Website Tester: FitsWarm | 2020 -2022

- Experienced in collaborating with product management to design, build, and test systems.
- Skilled in determining server operating limits through load testing and conducting regression testing.
- Adept in debugging process results and identifying defects, working closely with development team to resolve issues.
- Familiar with usability testing and design scenarios on Windows, Android, and iOS mobile devices.
- Proficient in identifying and tracking defects and supported developers in resolving problems.
- Strong ability to evaluate product performance, function and design compliance against design standards and customer needs
